

# Annex B (normative): Life cycle flow chart

(Provisional translation) PA-CO-01,  
Sea Food excluding Aquaculture (Sep. 28, 2011)

\* Processes related to supply of fuels and electricity, and supply and drain of water are omitted from this flow chart since they are common to all life cycle stages.  
 \* Conforming to the revision of the basic rules in July 2010, the "sales process" in the distribution stage is provisionally excluded from the assessment until its proper calculation method is finally established.  
 \* As for items to be recycled, up to and including recycling processes shall be calculated.  
 \* In case of intermediate goods, the shaded area shown in the chart above is considered to be applied to "raw material acquisition stage".
