

Detailed Information

1. CFP labeled product information		
1.1	Verification ID	CV-AB-002
1.2	Product name	TOPVALU Canola oil gift package
1.3	Product model	N/A
1.4	General specification of the product: <ul style="list-style-type: none"> ◆ Name of product: edible canola oil ◆ Content: 6 bottles of TOPVALU Canola oil (net weight per bottle: 1,000g) ◆ Ingredient: edible canola oil ◆ Gift package: 6 bottles of TOPVALU Canola oil are packed in a gift box 	

2. Company information		
2.1	Company name	AEON Co., Ltd.

3. Information related to CO ₂ e emissions			
3.1	CO ₂ e emissions for each life-cycle stage		
	Raw material acquisition	4.01E+00	kg-CO ₂ e
	Production	1.60E-00	kg-CO ₂ e
	Distribution/sales	1.81+00	kg-CO ₂ e
	Use/maintenance control	6.90E+01	kg-CO ₂ e
	Disposal/recycling	9.64E-01	kg-CO ₂ e
3.2	Total emissions	9.1kg	
3.3	Additional information: <ul style="list-style-type: none"> ◆ CO₂ emissions per preparation of stir-fried vegetables: 36.2g (city gas 13A is used) ◆ Percentages of production, distribution & sales, and use & disposal are indicated by a pie chart. <p>[Pie chart image]</p> <div style="text-align: center;"> <p>(Use & Disposal)</p> <p>(Distribution & Sales)</p> <p>(Production)</p> </div>		
3.4	Remarks:		

4. Approved PCRs and database of GHG emission factors		
4.1	Approved PCR name	Rapeseed oil
4.2	Approved PCR ID	PA-AB-01
4.3	Name of database of GHG emission factors	Tentative Database of GHG Emission Factors for the CFP Pilot Project
